

Conclusion: A Look To the Future

The IMPAC Steering Committee and all participants are committed to fostering the growth and maturity of this significant project. Among the goals for the 2002-2003 project year are these:

- ▶ To continue vigorous participation in the IMPAC process.
- ▶ To participate in the new CAN process as it evolves.
- ▶ To develop a process by which CAN descriptors can be reviewed on an annual basis by IMPAC faculty.
- ▶ To sponsor regional articulation meetings among community college faculty.
- ▶ To encourage networking among colleges throughout the state to strengthen ties between programs.

Recommendations that carry over from last year's report are:

- ▶ To continue to increase participation by UC and CSU discipline faculty.
- ▶ To ensure continuity of project leadership while still promoting new faculty's leadership and energy.
- ▶ To identify modes of more effective communication with key campus leadership (deans, department chairs).
- ▶ To submit additional CAN descriptors.
- ▶ To continue to promote IMPAC's direction, achievement, and goals through presentations to organizations, government and administrative groups.
